Florida Highway Patrol
Troop C Tampa, Florida

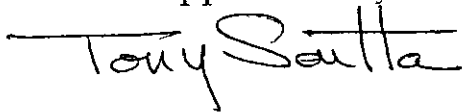

Sir or Madam,

While returning home today after a visit at Moffitt Cancer Center, I developed car trouble which forced me off the road on I-75. I requested help at a nearby call box and Trooper J. J. Hinson promptly came to my assistance.

Trooper Hinson was able to personally attend to the mechanical problem and soon had me back on my way. He instructed me to be careful getting back on the interstate and remained in his vehicle until he was certain that I was safely back on the road.

Over the years I've had occasion to travel in many parts of the U.S. as well as several counties abroad, but I've never encountered the degree of courteous and knowledgeable assistance offered today by Trooper Hinson. In my book he is a sterling human being and a credit to Florida Highway Patrol.

Most Appreciatively,

Tony Saitta
